STATE/INTERSTATE SOLID WASTE PLANNING GRANT LISTING, JULY 1968

The Solid Waste Disposal Act, Public Law 89-272, provides for grants to State and interstate agencies not to exceed fifty percent of the cost of making surveys of solid waste practices and developing solid waste disposal plans. Initial planning grant applications are considered for a maximum project period of three years.

To date, thirty-eight states, the District of Columbia, Puerto Rico, and three interstate agencies have received solid waste planning grants.

Total Public Health Service (PHS) funds awarded for solid waste planning grants during Fiscal Year 1966 amounted to $399,983. Total funds awarded during Fiscal Year 1967 were $997,305, and for Fiscal Year 1968 were $1,466,698. Planning Grant funds are limited to $2,000,000 for Fiscal Year 1969.

The figure given in the "Total Recommended PHS Support" column represents the total amount of PHS funds initially approved for the grantee's entire project period. The grantee is required to provide at least an equivalent amount of matching support.

The Public Health Service official assigned to the planning project is the Solid Wastes Program regional program chief for the PHS region in which the grantee is located. A listing of regional program chiefs is shown on the following page. The PHS region in which each project is located is specified on the listing.
